Purpose:

The purpose of this half day seminar is to provide practicing nurses in the Perianesthesia setting, and those interested in being the most current evidence based information on a variety of Obstetric topics.

Target Audience:

All professional nurses and Nursing students.

Overall Program Objective:

Discuss current evidence based information on Birthing topics related to anesthesia and surgery that will enhance nursing practice and quality patient care.

Disclosure Statement:

All faculty at this nursing continuing education activity are required to disclose to the audience 1) any significant financial relationships with the manufacturer(s) of any commercial products, goods, or services, and 2) any unlabeled/unapproved uses of drugs or devices discussed in this presentation. Such disclosure will be made in the course presentation materials.

Program Contact:
